

Can you see or hear all of the songbirds of Marsh-Billings-Rockefeller National Historic Park?

Take a field guide with you on your hike and try to spot as many of these birds as you can. Sometimes they like to hide in the trees so even if you hear it but don't see it, check it off! Think you've found a bird that's not on this list? Add the name to an empty line at the end.

- ☐ Alder Flycatcher
